

## **Press Release**

### **MARUTI SUZUKI WILL SHUT DOWN ITS FACTORIES IN HARYANA TO MAKE OXYGEN AVAILABLE FOR MEDICAL NEEDS; SAME DECISION BY SUZUKI MOTOR GUJARAT**

- *Committed to support Government in diverting oxygen for saving lives*
- *Advances its bi-annual maintenance shutdown to 1<sup>st</sup> May through 9<sup>th</sup> May from earlier plan of June*

**New Delhi, April 28, 2021:** As part of the car manufacturing process, Maruti Suzuki uses a small amount of oxygen in its factories while relatively much larger quantities are used by the manufacturers of components. In the current situation, we believe that all available oxygen should be used to save lives. Accordingly, Maruti Suzuki has decided to advance its maintenance shutdown, originally scheduled for June, to 1<sup>st</sup> to 9<sup>th</sup> May. Production in all factories will close for maintenance during this period.

The Company has been informed that Suzuki Motor Gujarat has taken the same decision for its factory.
