Ficci CASCADE launches campaign against smuggling

PRESS TRUST OF INDIA New Delhi, August 5

FICCI COMMITTEE AGAINST Smuggling and Counterfeiting Destroying the Economy (CAS-CADE) on Saturday launched an awareness campaign against illicit trade that impedes economic growth.

The campaign, titled #BeACASCADER, was organised to engage with people and create awareness of the detrimental consequences of illicit trade, Ficci CASCADE said in a statement. Due to smuggling and illicit

trade, tax loss has witnessed a whopping 163% rise from 2010 to 2020, the statement said, quoting a report titled 'Illicit Markets: AThreat to Our National Interests'. The financial implication

of this was ₹58,521 crore across five sectors, including alcoholic beverages, mobile phones, FMCG-household and personal goods, FMCG-packaged foods and tobacco products, it said.

During the decade, the tax losses incurred by the government from the alcohol indus-

try witnessed an astronomical surge of over 508%, while the increase in tax loss from the FMCG packaged foods industry stood at a substantial 201% and from the tobacco industry, the loss was pegged at 113%.

"Illicit trade inflicts significant harm on individual industries and has a substantial negative impact on employment generation and economic growth. Illicit trade also poses a dual challenge for the government," Ficci CASCADE chairman Anil Rajput said.

Not only does it result in a loss of legitimate tax revenue, but it also demands additional allocation of resources for enforcement and public health measures, he said.

Chandrayaan-3 successfully inserted into **lunar** orbit

INDIA'S AMBITIOUS THIRD

moon mission, Chandrayaan-

3, achieved a significant milestone as it successfully entered the lunar orbit on Saturday, as confirmed by the Indian Space Research Organisation (ISRO). The crucial maneuver was executed from an ISRO facility in Bengaluru, the city-headquartered space agency, as announced in a tweet. "Chandravaan-3 has been successfully inserted into the lunar orbit. A retro-burning at the Perilune was commanded from the Mission Operations Complex (MOX), ISTRAC (ISRO Telemetry, Tracking, and Command Network), Bengaluru," stated the agency in their tweet. The Perilune refers to the spacecraft's closest point to the moon, and the successful insertion into the lunar orbit marks a significant step forward in India's lunar exploration mission.

The next operation - reduction of orbit — will be done at 11 PM on Sunday, ISRO added.

ISRO also shared a message from the satellite to its centres, which read,"MOX, ISTRAC, this is Chandrayaan-3. I am feeling lunar gravity."

CARMAKER TO EXPAND PRODUCTION

Maruti expects over 6% growth in FY24

FE BUREAU New Delhi, August 5

MARUTI SUZUKI INDIA is optimistic about its growth prospects for FY24, with the company's chairman RC Bhargava stating that they expect to grow at over 6% during that period. He addressed the shareholders in the company's annual report for 2022-23 and expressed confidence in India's car industry, projecting a 6% growth rate until FY2030-31. Bhargava highlighted that in the fiscal year FY2022-23, the company's exports reached 259,000 units, and they anticipate a continued growth in demand for exports. As a result, the company projects export volumes to reach 750,000-800,000 cars by FY 2030-31.

Due to the increasing domestic and export requirements, it has recognised the need to expand its manufacturing capacity. The company is working on the first site in Kharkhoda, Haryana, where a plant with a capacity of

250,000 units is expected to commence production in the first half of 2025. Subsequently, the company plans to add one similar plant each year to achieve a total capacity of one million units. Additionally, it is in the process of selecting a second site to add another one million capacity by FY 2030-31. This ambitious phase of production expansion is being referred to as 'Maruti 3.0' by Bhargava.

"Our first phase was when we were a public enterprise. The second phase ended with the Covid pandemic, and the Indian car market became the third largest in the world," he

said adding that it took 40 years to create a capacity of 2 million units."Your company now has to add the next 2 million in a period of 9 years. The task of managing all the issues relating to the production of 4 million units a year requires considerable thought and possible reorganisation of the structure of the company...We will, as soon as possible, announce what we are proposing."

Besides, he said that by FY2030-31, the automaker could have about 28 different models. "Clearly the organisa tion and systems for selling such a large variety of cars will require changes from what exists at present." Furthermore, he said that the development of electric vehicles is "proceeding well" at the Gujarat facility. "Your company expects to start the sale of the first model in 2024-25 By 2030-31 we expect to have 6 EV models. These models are expected to comprise 15-20% of our total sales by that time.

The urban corporate hub known for its glitzy high-rises, luxury hotels, malls and gated condominiums is home to large Indian corporates and start-ups, as well as multinationals offices like Nestle, Coke, Pepsi, Bharti Airtel, Google, KPMG, Microsoft, American Express, Dell, Samsung, Ernst & Young, Deloitte, Oracle. Home to industrial manufactur-

ing and factories such as Hero Moto-Corp and Maruti Suzuki, many companies in Gurugram are taking stock of the situation as well as working in the interest of their teams' safety. "We have taken pre-emptive

actions to ensure the safety and welfare of our team members. As violence was reported in nearby districts, we have adjusted office hours, enabled remote working options for the upcoming days. Our leadership and human capital teams are constantly monitoring the situation and have facilitated secure departures of onsite and frontline members. Pick-anddrop facilities and additional travel allowances were sanctioned to ensure the safe travel of team members and the non-disruption of caregiving services. These measures ensure continued productivity while fostering an empathetic culture," said Simardeep Kaur, chief human resource officer, Max India and Antara Senior Living, a specialised residential facilities for short- and longterm care, pre- and

> post-operative care and memory care for seniors in Gurugram, which is a part of the Max Group.

But despite the disruption, it has been business as usual for most corporate and public relations business. "We have learnt to

efficientlyWFH dur-

redundancy to remotely manage operations and client servicing needs. It was easier for us to re-calibrate this week, as we are following a hybrid format to date of working from the office only three days a week and hence have processes and structures to account for team deliverables and meetings. I hope the tension is resolved soon, as longer-term WFH impacts both morale and productivity. Face-to-face meetings and engaging with team members is an immensely valuable part of the equation to collaborate, innovate, create, and learn," said Archana Jain, MD and CEO at PR Pundit, an integrated communications consultancy with offices in Gurugram, Mumbai and Bengaluru. The unrest is uncertain for the

food economy too. "The recent riots have added to the industry inflation. Businesses in general, be it for production or sales, are witnessing setbacks. The margins of produce are loweryet vegetable, especially tomato, prices are skyrocketing. This is because of the unrest and the shock to the supply chain. Most companies are facing this issue and the farmers are turning to localised areas and mandis to sell the produce directly because of the disruption in the supply chain and the ongoing unrest. The government is managing the situation and we hope things will be back to normal soon," said Ishit Pilani, co-founder of Organic Roots, a ready-to-eat healthy food brand in Gurugram. While corporates are advised to

work from home, Vineet Taing, CEO, Vatika Business Centre in Gurugram, which has various MNCs in the complex, observes that a good number of employees are working from their respective offices.

Byju's...

Byju's had already been working to appease creditors trying to restructure the \$1.2-billion loan when government investigators searched com-

prompted some investors to write down their stakes in the firm. Also Friday, Aakash Educational

Services, Byju's tutoring business unit agreed to add two independent directors to its board at the behest of creditor Davidson Kempner Capital Man agement, Bloomberg News reported Davidson Kempner, which manages more than \$38 billion, forced the changes in Aakash's board as the borrower was in breach of some covenants on a \$250-million loan, according to people familiar with the deal. Byju's officials are in ongoing talks with lenders to amend the loan's terms and Korpus said the firm "still wants to make a deal" to resolve the dispute. But lenders are trying to use the bogus default claims to wrongfully "seize control" of Byju's from its founder, Korpus added. The company failed to sign off on an amendment by an August 3 deadline that would have ended legal action in the US. For months now, Byju's and lenders have been negotiating over the loan, after the company breached debt

The lawsuit over the loan was filed by Glas Trust, which serves as trustee for the lenders. Former lawyer Timothy Pohl has been appointed to oversee Byju's on behalf of the creditors. Korpus said Pohl had been paid \$375,000 in his role as Byju's directordesignee for the lenders. He's slated to be paid \$75,000 per month while he oversees lenders' Byju's interests,

covenants.

Czeschin, a Wilmington, Delaware-based lawyer for the lenders, didn't immediately return a call for comment Friday on Pohl's compensation for serving as the creditors' Byju's overseer. A number for Pohl wasn't immediately available.

according to court filings.

The case is Glas Trust Company v Riju Ravindran, 2023-0488, Delaware Chancery Court (Wilmington).

Ficci CASCADE launches campaign against smuggling

PRESS TRUST OF INDIA New Delhi, August 5

FICCI COMMITTEE AGAINST Smuggling and Counterfeiting Destroying the Economy (CAS-CADE) on Saturday launched an awareness campaign against illicit trade that impedes economic growth.

The campaign, titled #BeACASCADER, was organised to engage with people and create awareness of the detrimental consequences of illicit trade, Ficci CASCADE said in a statement.

Due to smuggling and illicit

trade, tax loss has witnessed a

whopping 163% rise from 2010 to 2020, the statement said, quoting a report titled 'Illicit Markets: AThreat to Our National Interests'. The financial implication of this was ₹58,521 crore

alcoholic beverages, mobile phones, FMCG-household and personal goods, FMCG-packaged foods and tobacco products, it said. During the decade, the tax

across five sectors, including

losses incurred by the government from the alcohol indus-

try witnessed an astronomical surge of over 508%, while the increase in tax loss from the FMCG packaged foods industry stood at a substantial 201% and from the tobacco industry, the loss was pegged at 113%.

"Illicit trade inflicts significant harm on individual industries and has a substantial negative impact on employment generation and economic growth. Illicit trade also poses a dual challenge for the government," Ficci CASCADE chairman Anil Rajput said.

Not only does it result in a loss of legitimate tax revenue, but it also demands additional allocation of resources for enforcement and public health measures, he said.

Chandrayaan-3 successfully inserted into **lunar** orbit

INDIA'S AMBITIOUS THIRD

moon mission, Chandrayaan-3, achieved a significant milestone as it successfully entered the lunar orbit on Saturday, as confirmed by the Indian Space Research Organisation (ISRO). The crucial maneuver was executed from an ISRO facility in Bengaluru, the city-headquartered space agency, as announced in a tweet. "Chandravaan-3 has been successfully inserted into the lunar orbit. A retro-burning at the Perilune was commanded from the Mission Operations Complex (MOX), ISTRAC (ISRO Telemetry, Tracking, and Command Network), Bengaluru," stated the agency in their tweet. The Perilune refers to the spacecraft's closest point to the moon, and the successful insertion into the lunar orbit marks a significant step forward in India's lunar exploration mission.

The next operation - reduction of orbit — will be done at 11 PM on Sunday, ISRO added.

ISRO also shared a message from the satellite to its centres, which read,"MOX, ISTRAC, this is Chandrayaan-3. I am feeling lunar gravity."

CARMAKER TO EXPAND PRODUCTION

Maruti expects over 6% growth in FY24

FE BUREAU New Delhi, August 5

MARUTI SUZUKI INDIA is optimistic about its growth prospects for FY24, with the company's chairman RC Bhargava stating that they expect to grow at over 6% during that period. He addressed the shareholders in the company's annual report for 2022-23 and expressed confidence in India's car industry, projecting a 6% growth rate until FY2030-31. Bhargava highlighted that in the fiscal year FY2022-23, the company's exports reached 259,000 units, and they anticipate a continued growth in demand for exports. As a result, the company projects export volumes to reach 750,000-

Due to the increasing domestic and export requirements, it has recognised the need to expand its manufacturing capacity. The company is working on the first site in Kharkhoda, Haryana, where a plant with a capacity of

800,000 cars by FY 2030-31.

250,000 units is expected to commence production in the first half of 2025. Subsequently, the company plans to add one similar plant each year to achieve a total capacity of one million units. Additionally, it is in the process of selecting a second site to add another one million capacity by FY 2030-31. This ambitious phase of production expansion is being referred to as 'Maruti 3.0' by Bhargava.

"Our first phase was when we were a public enterprise. The second phase ended with the Covid pandemic, and the Indian car market became the third largest in the world," he

said adding that it took 40 years to create a capacity of 2 million units."Your company now has to add the next 2 million in a period of 9 years. The task of managing all the issues relating to the production of 4 million units a year requires considerable thought and possible reorganisation of the structure of the company...We will, as soon as possible, announce what we are proposing."

Besides, he said that by FY2030-31, the automaker could have about 28 different models. "Clearly the organisa tion and systems for selling such a large variety of cars will require changes from what exists at present." Furthermore, he said that the development of electric vehicles is "proceeding well" at the Gujarat facility. "Your company expects to start the sale of the first model in 2024-25 By 2030-31 we expect to have 6 EV models. These models are expected to comprise 15-20% of our total sales by that time.

ing and factories such as Hero Moto-Corp and Maruti Suzuki, many companies in Gurugram are taking stock of the situation as well as working in the interest of their teams' safety. "We have taken pre-emptive

actions to ensure the safety and welfare of our team members. As violence was reported in nearby districts, we have adjusted office hours, enabled remote working options for the upcoming days. Our leadership and human capital teams are constantly monitoring the situation and have facilitated secure departures of onsite and frontline members. Pick-anddrop facilities and additional travel allowances were sanctioned to ensure the safe travel of team members and the non-disruption of caregiving services. These measures ensure continued productivity while fostering an empathetic culture," said Simardeep Kaur, chief human resource officer, Max India and Antara Senior Living, a specialised residential facilities for short- and long-

> term care, pre- and post-operative care and memory care for seniors in Gurugram, which is a part of the Max Group. But despite the

> disruption, it has been business as usual for most corporate and public relations business. "We have learnt to efficientlyWFH dur-

redundancy to remotely manage operations and client servicing needs. It was easier for us to re-calibrate this week, as we are following a hybrid format to date of working from the office only three days a week and hence have processes and structures to account for team deliverables and meetings. I hope the tension is resolved soon, as longer-term WFH impacts both morale and productivity. Face-to-face meetings and engaging with team members is an immensely valuable part of the equation to collaborate, innovate, create, and learn," said Archana Jain, MD and CEO at PR Pundit, an integrated communications consultancy with offices in Gurugram, Mumbai and Bengaluru. The unrest is uncertain for the

food economy too. "The recent riots have added to the industry inflation. Businesses in general, be it for production or sales, are witnessing setbacks. The margins of produce are loweryet vegetable, especially tomato, prices are skyrocketing. This is because of the unrest and the shock to the supply chain. Most companies are facing this issue and the farmers are turning to localised areas and mandis to sell the produce directly because of the disruption in the supply chain and the ongoing unrest. The government is managing the situation and we hope things will be back to normal soon," said Ishit Pilani, co-founder of Organic Roots, a ready-to-eat healthy food brand in Gurugram.

While corporates are advised to work from home, Vineet Taing, CEO, Vatika Business Centre in Gurugram, which has various MNCs in the complex, observes that a good number of employees are working from their respective offices.

Byju's...

Byju's had already been working to appease creditors trying to restructure the \$1.2-billion loan when government investigators searched com-

prompted some investors to write down their stakes in the firm. Also Friday, Aakash Educational

Services, Byju's tutoring business unit agreed to add two independent directors to its board at the behest of creditor Davidson Kempner Capital Man agement, Bloomberg News reported Davidson Kempner, which manages more than \$38 billion, forced the changes in Aakash's board as the borrower was in breach of some covenants on a \$250-million loan according to people familiar with the deal. Byju's officials are in ongoing talks with lenders to amend the loan's terms and Korpus said the firm "still wants to make a deal" to resolve the dispute. But lenders are trying to use the bogus default claims to wrongfully "seize control" of Byju's from its founder, Korpus added. The company failed to sign off on an amendment by an August 3 deadline that would have ended legal action in the US. For months now, Byju's and lenders have been negotiating over the loan, after the company breached debt

The lawsuit over the loan was filed by Glas Trust, which serves as trustee for the lenders. Former lawyer Timothy Pohl has been appointed to oversee Byju's on behalf of the creditors. Korpus said Pohl had been paid \$375,000 in his role as Byju's directordesignee for the lenders. He's slated to be paid \$75,000 per month while he oversees lenders' Byju's interests,

Czeschin, a Wilmington, Delaware-based lawyer for the lenders, didn't immediately return a call for comment Friday on Pohl's compensation for serving as the creditors' Byju's overseer. A number for Pohl wasn't immediately available.

according to court filings.

The case is Glas Trust Company v Riju Ravindran, 2023-0488, Delaware Chancery Court (Wilmington).
