

Maruti Suzuki drives-in the all-new S-Cross

Oct 01, 2017

Bold, Aggressive Design | DDiS 200 with Smart Hybrid Technology | Assertive, Premium and Sophisticated

New Delhi: Maruti Suzuki India Limited today launched its premium urban offering, S-Cross in an all-new, bold and assertive form.

Presenting the all-new S-Cross to customers, **Mr. Kenichi Ayukawa, Managing Director & CEO, Maruti Suzuki** said, "S-Cross, in its newest form, is an important milestone in our journey of transformation. The all-new S-Cross comes with an all new fascia that is bold and aggressive. By equipping it with the acclaimed green technology DDiS200 with Smart Hybrid we have been able to bring down emissions in the all-new S-Cross to as low as 105.5 gm/km. We are confident that S-Cross will strengthen Maruti Suzuki's position in the premium urban segment."

The fact that S-Cross enjoys a special place in Maruti Suzuki portfolio encouraged the company to look at this change quite aggressively. The Company, along with its suppliers, has invested over Rs 100 crore towards development of the all-new S-Cross. It comes with over 95% localization.

All New Looks

The all-new S-Cross sports an entirely new, bold design with a powerful upright stance.

The masculine and aggressive upright stance is accentuated by a sculpted hood design and sleek headlamps. The sharp LED projector headlamps, housed neatly with the daylight running lamps (DRLs), make the all-new S-Cross more assertive.

The imposing chrome on the grille, along with the emphatic S insignia, makes the all-new S-Cross distinct and premium. The rear combination lamps (RCL), also equipped with LEDs, are cleaner, sharper and more contemporary in style. Wider tyres (215/60 R16), coupled with contrasting two-tone machine finished alloys, give it an imposing on-road presence. Overall, the all-new S-Cross is much more premium, aggressive and assertive.

Chic Classy Interiors

The interiors have also been tastefully upgraded and made classier with a satin chrome accent finish, a soft touch dashboard and well-coordinated seat fabric designs. More new-age technologies, like an intuitive touchscreen infotainment system with Android Auto and Apple CarPlay would also complement the all-new S-Cross. The piano black coloured central panel, together with a premium leather finish arm-rest, adds a dash of premium-ness to the offering.

All New Powertrain

In its newest form, the all-New S-Cross scores high not just on looks but also in technology and powertrain. The all-new S-Cross gets the DDiS 200 with Smart Hybrid technology. This is the third

Powerful upright stance:

- Premium, aggressive and assertive
- Sculpted hood design and sleek headlamps
- Chrome on the grille with emphatic S insignia
- Sharp LED projector headlamps
- Wider tyres with contrasting two-tone machine finished alloys

Premium Interior Design:

- Satin chrome accent finish, soft touch dashboard
- Well-coordinated seat fabric design
- Intuitive touchscreen infotainment system with Android Auto and Apple CarPlay and compatibility
- Piano black coloured central panel, together with a premium leather finish arm-rest

Salient Smart Hybrid Features:

- **Idle Start Stop:** The idle engine start/stop function turns off the engine automatically when the car is idling and restarts it as soon as the clutch is pressed.
- **Power Assist:** The stored energy in advanced high capacity battery assists engine power during acceleration.
- **Brake Energy Regeneration:** The ISG converts the energy from braking/deceleration of the car

model in the Maruti Suzuki portfolio to host the DDiS 200 with Smart Hybrid technology. It comes packed with a host of features like idle-stop-start, torque assist, brake energy regeneration system and a gearshift indicator. Many of these features enhance energy efficiency in the S-Cross.

Ahead in safety: Tested at the company's world-class Rohtak R&D facility, the all-new S-Cross is among the six models already compliant with advanced upcoming new safety norms - frontal offset crash, side impact and pedestrian safety. It comes with rear seat ISO-FIX child seat safety mount. These features are standard across all variants of S-Cross

Launched in August 2015, S-Cross was the first premium offering to debut from the Company's all new premium retail channel-NEXA. S-Cross therefore, has been instrumental in shaping the premium imagery of the channel and contributed significantly towards establishing NEXA. The Company has sold over 53,000 S-Cross in the domestic market and exported over 4,600 units.
