

Impact on vehicle production in Haryana and Gujarat plants in November'21 owing to electronic components supply constraint

New Delhi, October 30, 2021: Owing to a supply constraint of electronic components due to the semiconductor shortage situation, the Company is expecting an adverse impact on vehicle production in the month of November'21 in both Haryana and its contract manufacturing company, Suzuki Motor Gujarat (SMG) in Gujarat.

Though the situation is quite dynamic, it is currently estimated that the total vehicle production volume across both locations could be around 85% of normal production.
