ASSIST

1. **Which alerts will I be able to see on the app?**

   During driving, if any of your doors is open or driver seatbelt is open or Hand brake is engaged, then, respective alerts will be displayed on the app. Also, if vehicle fuel level is low, then, Low Fuel alert will be displayed on App.

2. **How to stop the alerts from app or in-vehicle audio display?**

   Tap on Assist -> Go to Settings -> Change the alert setting from ON to OFF.
